Summary

Aspiring AI & Data Science professional with hands-on experience in machine learning, data analysis, and application development through academic projects and technical certifications. Proficient in Python, Java, C, SQL, and AI technologies, with experience in developing data-driven applications, predictive models, and scalable software solutions. Skilled in problem-solving, prompt engineering for AI applications, and applying data science techniques to solve real-world challenges. Passionate about continuous learning, innovation, and building intelligent solutions using emerging technologies.

Education

- | | |
|--|-------------|
| Poornima University , B. Tech in Computer Science (AI and Data Science) | 2024 – 2028 |
| • CGPA: 8.33 (Current CGPA) | |
| New Rajasthan Sr. Sec. School , — Class XII (RBSE Board) | 2021 – 2022 |
| • Percentage: 83.20% | |

Skills

- **Languages:** Java, Python, C, SQL
- **Frameworks & Libraries:** NumPy, Pandas, Seaborn, Matplotlib
- **Tools & Technologies:** HTML5, CSS, MySQL, Jupyter Notebook, Machine Learning, Excel, Word, PowerPoint
- **Relevant Courses:** Data Structures and Algorithms, Data Science, Statistics, OOPs Concepts, Basic Web Development
- **AI Skills:** Prompt Engineering for AI Applications, Automation of Manual Workflows

Projects

Mahala VS Code – Web IDE & Android Application:

- Developed a cross-platform IDE enabling browser-based and Android code editing with a virtual file system, multi-language execution (JavaScript, Python, C/C++, SQL), live preview, terminal support, AI integration. Designed for offline-first usage with IndexedDB-based storage.
- **Technologies:** HTML5, CSS3, JavaScript (ES6), Monaco Editor, IndexedDB, SQLite (sql.js), JSZip

Campus Placement Predictor Application:

- Designed and deployed a machine learning application to predict campus placements of students based on multiple academic parameters.
- **Technologies:** Python (Machine Learning, Flask), HTML5, CSS

Ambition Box: Data Science Project:

- Designed an application for job seekers to find jobs according to their role, salary, and location.
- **Technologies:** Python, HTML5, CSS

Transport Management:

- Designed a web application to manage 500+ vehicle records with real-time appointment and prescription updates.
- **Technologies:** HTML, CSS, JavaScript, MySQL

Certifications

- | | |
|---|---------------------|
| • Oracle — Oracle Cloud Infrastructure 2025 Generative AI Professional | Oracle University |
| • MongoDB — Building AI Agents with MongoDB | MongoDB |
| • Google — Google Cloud Career Launchpad Cloud Engineer track | Google |
| • NPTEL — Ethics in Engineering Practice | IIT Kharagpur |
| • NPTEL — Environmental Planning and Management | IIT Roorkee |
| • UI/UX with Graphic Design — | Grass Pvt. Ltd. |
| • Prayogam-2025 — Transport Management System | Poornima University |
-

Achievements

- Solved **100+** coding problems on LeetCode, enhancing proficiency in data structures and algorithms.
- **Team Leader - Prayogam-2025:** Led a team of developers to design and implement an innovative tech solution under Poornima University Faculties.
